**Sistema 84 con anta Slim**

Il sistema 84 propone l'anta impiallacciata in rovere a 1/4 di fiamma con bordo in massello larghezza 1 cm, spessore totale dell'anta 22 mm. La finitura in legno viene esaltata dalla cornice che conferisce grande rigore nella geometria essenziale. La tridimensionalità materica, nei giochi di luce e ombra, rende l'anta molto preziosa.

## Struttura di base

La struttura della cucina passa dalla profondità standard di 60 cm a ben 65 cm. Tale soluzione aumenta la capienza complessiva della base e la profondità del piano, quindi la superficie lavoro. Questa soluzione unita allo zoccolo da 6 cm e la struttura H 84 cm ridefinisce i volumi in cucina.
