BEING ITALIAN EVERY WHERE

IT L'ambizione di qualsiasi progetto è quello di essere realizzato e prendere vita. Soprattutto se parliamo di design, casa e quotidianità, la cucina accende uno spazio per essere vissuto. Vi presentiamo alcuni dei nostri migliori e più rappresentativi lavori, tra l'Italia e il resto del mondo. Le nostre soluzioni personalizzate, uniche, rappresentano al meglio la qualità del Made in Italy che si confronta con progettisti internazionali, esigenze di mercati diversi e sempre più esigenti. I confini del progetto si allargano al living, alle soluzioni bagno e vanno ad arricchire locatione esclusive. Floritelli cucine si confronta con soluzioni private, contract e retail, diventando ambasciatore del design italiano nel mondo.

EN The ambition of any project is for it to be realised and come to life. Especially when it comes to design, home, and everyday life, the kitchen is a space meant to be enjoyed. Let us introduce you to some of our best and most representative works, in Italy and around the world. Our customised, unique solutions best represent Made in Italy quality in the face of international designers and the needs of different and increasingly demanding markets. The project's boundaries expand to include living areas, bathroom solutions and to enhance exclusive locations. Floritelli cucine offers private, contract, and retail solutions, becoming an ambassador of Italian design in the world.
